

IC MINI/8 LCR

Triad's in ceiling version of the new Mini LCR is the perfect front speaker for small home theater venues where speakers need to be in the ceiling. The compact speaker directs all the sound at a 45-degree angle toward the listening position; far superior to aimable tweeters found in ordinary round ceiling speakers.

To make the attractive flush Acoustiperf grill disappear even more, custom paint matching is offered with this and all Triad LCRs. We can offer this service because our speakers are made-to-order in our modern facility in Oregon. Use any of many Triad Surrounds and Subs with the InCeiling Mini/8 LCR, including inwall, in ceiling, in room, and onwall versions, to create a superb custom home theater system in a den, bedroom, or office.

Category: Home Cinema

Tag: InCeiling

Enclosure

Fully engineered, Premium MDF enclosure.
Acoustic Suspension.
2-way design.

Finishes

Triad's Basic & Custom Finishes are available for this product. The standard finish for this product is White paint. For any other colors, please refer to Triad's Custom Match Finish program for this product. The paint we use is a top quality enamel and is applied with a light pebble finish.

Since all computer monitors and their colors vary, the digital color you see here will be different from the actual product finish.
